

THINK

UV Eco Soy Process Series Ink

Ultra Violet, Ultra Green, Ultra Profitable.

Our new high-quality ultraviolet energy-cured inks deliver high bottom-line benefits and low environmental impacts using renewable soybeans. UV Eco Soy inks have fractional levels of volatile organic compounds and are thus friendlier to the environment.

Product Overview

UV Eco Soy Process Series Ink are formulated for excellent printability and high mileage on a variety of paper substrates. They are perfect for high-speed printing settings because they cure rapidly, allowing for fast turnaround.

Features and Benefits

Features

- Eco-friendly, soy oil-based
- UV ultra quick setting
- High-speed compatibility
- Improved scumming resistance
- Consistent performance all dampening systems

Benefits

- No V.O.C. related problems
- Fast turn around
- Stable press performance
- Brilliant color reproduction

Specifications

Packaging

5 lb. can

Technical Data

	Yellow	Magenta	Cyan	Black
Series				
Tack*1:	13.0	16.0	18.0	16.0
Flow*2:	14.0	16.0	14.0	15.0
Viscosity*3	400	500	550	450

*1: Ink-o-meter, @800 rpm, 90F

*2: Spread-o-Meter Radius (mm) @ 77F

*3: Haake RT20+50P
